

Accuracy, precision, and a steady hand. Exactly what the doctor ordered.

Making sure the right medicines get to the right patients at the right time—safely and efficiently—is what pharmaceutical distributors do each and every day. For 140 years, the Healthcare Distribution Alliance, formerly HDMA, has helped our industry and the healthcare supply chain confront the challenges of today and prepare for the opportunities of tomorrow. By connecting manufacturers to pharmacies, hospitals, and providers, pharmaceutical distributors are the vital link that serves the healthcare system—and the patients who depend on it.
